Donna's Premier Lodging Story Cont.

the fully equipped kitchen created with exotic woods. The massive, hand hewn mantle above the stone fireplace in our Romancing the Stone cabin completes the romantic essence of this undeniably unique escape.

Innkeeper Donna Marie Schlabach and her staff have carefully chosen a wide variety of special touches to make each couple's stay a unique and memorable experience. After all, at Donna's Premier Lodging, they speak 'romance' fluently! Jacuzzis, King and Queen sized beds, kitchen facilities and fireplaces aren't extras here – they are our gold standard for every room. A piping hot breakfast in bed or delivered right to your front door, rose petals scattered through the room, fragrant floral bouquets, locally dipped chocolate covered strawberries, a delightful romantic board game, or perfectly personalized baskets with any theme you choose – these all add up to provide a crème de la crème experience. Amish buggy rides are also a well loved favorite at Donna's, but winter snows bring with them a delight straight out of a Currier and Ives print – an authentic, horse drawn sleigh ride for you and your special someone!

For those guests who enjoy discovering treasures both new and well-worn, our Holmes County shops are waiting year 'round. Hand sewn quilts in spectacular colors and patterns can be found everywhere, as can carefully hand woven baskets and other handmade items. Dozens of Amish furniture stores, featuring pieces of exceptional workmanship, are within close driving distance of Donna's, as are a multitude of specialty gift shops. We also feature a plethora of antique venues, all brimming with one-of-a-kind surprises, and numerous must-see attractions, including the 265 foot mural of Behalt, which tells of the area's Amish and Mennonite heritage, the wondrous wood carvings at Warther Museum, the

amenities invite guests to settle in by the warmth of a fireplace to escape the icy cold, sip something bubbly and taste a tray of the area's exquisite homemade cheeses, chocolates, and other delicacies. For those preferring their accommodations a little more upscale, a stay in a charming Cottage, elegant Victorian Chalet with its own billiards table, or contemporary and luxurious Villa may be a perfect fit.

For those with exceptionally discriminating tastes, the Romancing the Stone log cabin is far and away above any traditional accommodation. Two levels plus a lofted sleeping room were designed to incorporate a naturally flowing stone waterfall on the property. Yes, the waterfall flows right through your cabin! Imagine enjoying the soothing sounds of rippling water while lounging in a heart-shaped Jacuzzi full of steamy bubbles! The mood lighting sets the tone for the perfect evening here.
