## Rake In The Memories At Bear Creek Resort Ranch Koa

Fall is the perfect time to pile up the fun at Bear Creek Resort Ranch KOA Kampground, located just seven miles South of Canton, Ohio.

Camping gives families quality time together. It's a chance to break away from the ordinary routine, learn new skills, experience the outdoors, and enjoy each other's company.

When sharing outdoor activities with the family, simple experiences are often the most memorable. Something as simple as sitting around a campfire can be a powerful experience and is one of the best forms of entertainment that parents and kids can have together. Making smores, or Hobo pies are a classic treat; fill slices of bread with the sweet or savory filling of your choice, then grill over the fire. You could go fishing, take a nature walk, ride a paddleboat or take a guided horseback ride along wooded trails.

Upcoming special events at Bear Creek KOA include: LABOR DAY/MARDI GRAS WEEKEND, September 3-4-5 (3 night minimum stay) with Friday night campfire and free hot dogs and drink furnished by the campground and a Night-time Glowstick Hayride. Saturday, there's pony rides, you can make festive hats and masks to wear to the Mardi Gras Dance Party

Saturday night. (Provided are hats, masks, feathers and beads!) Sunday, there's a pancake and sausage breakfast (\$), and dollar a game miniature golf. Another popular event is the HALLOWEEN CAMPOUT, October 8-9. Friday night campfire get-together, Saturday trick or treat through the campground (bring candy to hand out and one full size bar per game for candy bar bingo). Pot luck stew, you bring the vegetables, and the meat and homemade cornbread are furnished by the campground. Bring a pumpkin to carve, there's Halloween games, craft time and a Monster Costume Ball Party. Decorate your campsite or kabin – 1 vote per registered site for top three prizes.

Although you must be a registered camper to participate in the theme weekends, there are rental kamper kabins and fully-furnished cottages, tent sites, and hookup options for all types of RVs – from compact van conversions to luxury motorhomes with slideouts and 50 amp service.

Also offered at Bear Creek KOA are hour-long horseback rides, pony rides for the little buckaroos, a large outdoor pool, 5-acre fishing lake (catch 'n release), paddleboat rentals, hayrides, KOA Store and Gift Shop, Game Room and 26-miles of marked ATV and Dirt Bike Trails (nearby).

Escape daily routines and enjoy freedom in a unique, scenic place where fun can always be found! Rake in more memories this fall at Bear Creek Resort Ranch KOA, 3232 Downing St SW, East Sparta, OH 44626. Phone (330) 484-3901 or visit the website at www.bearcreek.us

## AMISH BUGGY • GOLF CARTS Vehicle Lighting

**Made in the USA**

The Amish Buggy will have the option of a total of 4 led lights as on the golf cart or 8 led lights, 2 each, red and amber in the back. The 2 amber will be constant flashing, and the 2 red will act as running, turn signal, and brake lights. The front will have 4 amber led lights. 2 located high will be constant flashing and the 2 located lower will act as running and turn signal lights. Also included is the two 55 Watt white lights, a license plate light for the caution sign to be visible, and a 95db horn.

Benefits: Modular or reusable - pick your own option. State of the art digital technology. Complete systems, color coded wiring. Plug in wiring assembly, 1 year warranty. LED technology, non-tech installation 4 way hazard flashers. Electronics & LED lights designed and built in USA.

**Manufactured by Atwood Lake Resident. Local Installation Available**

052609-01 Brake/Turn-Signal/Running Light Controller

The 052609-01 Controller is used to control 4 or 8 052309-01 LED lamp assemblies to perform the functions of Brake lights, Turn Signals, 4 way Hazard flashers, Running (parking) lights, two 55 watt headlights and a 95 db Horn. It requires 12VDC to operate, and on vehicles that are other than 12VDC, the following DCDC Converter is required.

The 052809-01 Power Supply is a High-Frequency DC-to-DC converter switching regulator. It has a pre-set output voltage of 13VDC and is capable of supplying up to 14 Amps (182 Watts). It will function with an input voltage in the range of 30VDC to 55VDC (it can be used with both 36 volt and 48 volt systems).
